Index to volume 25 (1987)

No 1 (January) pp 1–64

No 2 (March) pp 65–128

No 3 (May) pp 129–192

No 4 (July) pp 193–256

No 5 (September) pp 257–312

No 6 (November) pp 313–392

Articles

Acousto-optic method for ultrasonic pulse characterization
Mayer, W.G. and Neighbors, T.H. ... 83

Action of high intensity ultrasound on solidifying metal
Abramov, O.V. ... 73

Anisotropy measured with shear and Rayleigh waves in rolled plates
Hirao, M., Hara, N. and Fukuoka, H. ... 107

Applications of ultrasound to organic chemistry
Davidson, R.S., Safdar, A. and Robinson, B. ... 35

Assessment of asymmetry in broad-band focussed ultrasonic fields
Chivers, R.C. and Lewin, P.A. ... 300

Automatic determination of ultrasound velocities in planar materials
Van Zummeren, M., Young, D., Habeger, C., Baum, G. and Treleven, R. ... 288

Broad-band driving of echographic arrays using 10 ns–500 V efficient pulse generators
Ramos–Fernandez, A., Sanz–Sanchez, P.T. and Montero de Espinosa, F.R. ... 221

Broad-band electrical matching of transducers for acoustic microscopy
Zhao, Z. ... 95

Cavitation damage and noise spectra in a polymer solution
Tsujino, T. ... 67

Closed ultrasonic tank with a convex compliant inspection surface
Bristow, F.G. and Chivers, R.C. ... 180

Coherent to incoherent ultrasonic wave conversion in heterogeneous media
Perdigao, J.M., Gazalet, N., Frohly, J. and Bruneel, C. ... 209

Comparative study of wideband ultrasonic transducers
Dewhurst, R.J., Edwards, C.E., McKie, A.D.W. and Palmer, S.B. ... 315

Comparison of SAFT and two-dimensional deconvolution methods for the improvement of resolution in ultrasonic B-scan images
Burch, S.F. ... 259

Dependence of ultrasonic velocity in rabbit liver on water content and structure of the tissue
Sarvazyan, A.P., Lyrchikov, A.G. and Gorelov, S.E. ... 244

Design, construction and experimental investigation of ultrasonic pulse transducers with different bandwidths
Richter, K.P., Milner, R., Holzer, F., Leitgeb, N. and Wach, P. ... 229

Effect of ultrasound on the solvolysis of 2-chloro-2-methylpropane in aqueous alcoholic solvents
Lorimer, J.P., Mason, T.J. and Mistry, B.P. ... 23

Effects of high intensity ultrasound on inorganic solids
Suslick, K.S., Casadonte, D.J., Green, M.H.L. and Thompson, M.E. ... 56

Effects of ultrasound on the catalytic activity of matrix-bound gluocoamylase
Schmidt, P., Rosenfeld, E., Millner, R. and Schellenberger, A. ... 295

Elastic wave diffraction by a circular cavity
Müller, K.H. ... 335

Elastodynamic long wavelength phase
Rose, J.H. ... 141

Electronic circuit for high frequency and broad-band ultrasonic pulse-echo operation
Buchler, J., Platte, M. and Schmidt, H. ... 112

Evidence for free radicals produced in aqueous solutions by diagnostic ultrasound
Christman, C. L., Carmichael, A. J., Mossoba, M.M. and Reisz, P. ... 31

Exact solution of the inverse acoustic scattering problem for the one-dimensional density profile in cylindrical geometry
Smith, P.R. ... 138

Experimental demonstration of Fourier synthesis of an annular ultrasonic intensity distribution
Harrison, G.H. and Balcer–Kubiczek, E.K. ... 172

Fabrication of non-uniformly excited wideband ultrasonic transducers
Brittain, R.H. and Weight, J.P. ... 100

Feature mapping of Y-shaped cracks using a ray-tracing interpretation
Ngoc, T.D.K., Ng, K.W. and Mayer, W.G. ... 215

In vivo biomicroscopy with ultrasound
Santosh, K., Tobocman, W., Haacke, E.M. and Izen, S.H. ... 274

Influence of amplitude errors on beam-steered phased arrays
Lancée, C.T., Vissers, J.M., Mientki, S., Ligtvoet, C.M. and Bom, N. ... 147

Influence of phase errors on beam-steered phased arrays
Lancée, C.T., Vissers, J.M., Mientki, S., Ligtvoet, C.M. and Bom, N. ... 154

Influence of wearplate and coupling layer thickness on ultrasonic velocity measurement
Vincent, A. ... 237

Initiation of polymerization with ultrasound
Kruus, P. ... 20

Investigation of pulse-excited hydrophones for ultrasonic filed measurements using laser interferometry
Reibold, R. and Molkenstruck, W. .. 114

Laser driven acoustic instabilities in materials with strain-dependent dielectric constants
Ghosh, S. and Dixit, S. ... 175

Limitations of ultrasound imaging and image restoration
Herment, A., Guglielmi, J.P., Dumee, P., Peronneau, P. and Delouche, P. .. 267

Microcomputer-based digital pulse compression system for ultrasonic NDT
Lam, F.K. ... 166

Organometallic sonochemistry: successes, problems and by-products
The Sonochemistry Group and Luche, J.L. ... 40

Qualitative characterization of ultrasound reactors for heterogeneous sonochemistry
Pugin, B. ... 49

Quantitative acoustic emission and failure mechanics of composite materials
Sachse, W. and Kim, K.Y. ... 195

Quantitative studies in ultrasonic wave-defect interaction
Georgiou, G.A. and Bond, L.J. ... 328

Real-time analysis of Doppler waveforms
Barber, D.C., Rao, U., Sherriff, S.B. and Gardener, D. ... 87

Relative anisotropies of plane waves and guided modes in thin orthorhombic plates: implication for texture characterization
Thompson, R.B., Lee, S.S. and Smith, J.F. ... 133

Side-lobe suppression for ultrasonic imaging arrays
Moshfeghi, M. ... 322

Sonochemically enhanced Ullmann reactions
Lindley, J., Mason, T.J. and Lorimer, J.P. ... 45

Sonochemistry: historical developments and modern aspects
Henglein, A. ... 6

Sonoluminescence
Verrall, R.E. and Sehgal, C.M. ... 29

Split spectrum processing: optimizing the processing parameter using minimization
Karpur, P., Shankar, P.M., Rose, J.L. and Newhouse, V.L. ... 204

Two signal processing techniques for the enhancement of the flaw-to-grain echo ratio
Yue Li and Ying Chong-Fu ... 90

Ultrasonic properties of tetraalkoxysilanes
Alagar, M. and Krishnasamy, V. ... 283

Ultrasonic study on the change in elastic anisotropy with plastic compressive deformation
Taniguchi, M. and Iwashimizu, Y. .. 160

Ultrasonics in chemical analysis
Asher, R.C. ... 17

Keywords

Acoustic birefringence
elastic anisotropy, plastic deformation ... 160

Acoustic emission
ultrasonic testing, failure mechanics, composite materials ... 195

Acoustic instability
lasers, dielectric constants ... 175

Acoustic microscopy
transducers, electrical matching ... 95

Acoustic transients
transducers, EMATs 315
Acoustics
inverse scattering, cylindrical geometry 138
Amplitude errors
phased arrays, directivity patterns .. 147
Anisotropy
plane waves, material characterization, plate waves 133
stress measurement, shear waves, Rayleigh waves 107
Annular arrays
Fourier synthesis, intensity distributions 172
Arrays
beam patterns, SAFT 322
Austenitic steels
signal processing, material characterization 90
Automatic determination
ultrasound velocities, material characterization 288
Beam patterns
arrays, SAFT 322
Bioacoustics
ultrasonic velocity, tissue structure 244
Biological tissues
biomicroscopy, image resolution, inverse scattering 274
Biomicroscopy
image resolution, inverse scattering, biological tissues 274
B-scan
image resolution, SAFT, deconvolution 259
Catalytic activity
ultrasonic waves, enzymes 295
Cavitation
polymers, noise spectra 67
sonochemistry, diagnostic ultrasound, free radicals 31
Chemical analysis
sonochemistry 17
Chemical synthesis
sonochemistry, organic chemistry, phase transfer catalysis 35
Composite materials
acoustic emission, ultrasonic testing, failure mechanics 195
Computer models
Doppler waveforms 87
Cracks
NDE, feature mapping 215
Creeping wave
radiation, directional spectra 335
Current theories
sonochemistry, historical developments 6
Cylindrical geometry
inverse scattering, acoustics 138
Deconvolution
echography, tomography 267
image resolution, B-scan, SAFT ... 259
Diagnostic ultrasound
sonochemistry, cavitation, free radicals 31
Dielectric constants
lasers, acoustic instability 175
Directional spectra
creeping wave, radiation 335
Directivity patterns
phased arrays, amplitude errors ... 147
phased arrays, phase errors 154
Doppler waveforms
computer models 87
Dosimetry
sonochemistry, ultrasound reactors, thermocouple probes 49
Echography
pulse generation, excitation systems 221
tomography, deconvolution 267
Edge waves
transducers, plane waves, fabrication techniques 100
Elastic anisotropy
plastic deformation, acoustic birefringence 160
Electrical matching
transducers, acoustic microscopy ... 95
Electron microscopy
sonochemistry, high intensity ultrasound, inorganic solids 56
Electronics
pulse-echo techniques, flaw detectors 112
EMATs
transducers, acoustic transients ... 315
Enzymes
ultrasonic waves, catalytic activity .. 295
Excitation systems
echography, pulse generation 221
Fabrication techniques
transducers, plane waves, edge waves 100
transducers, pulse-echo techniques 229
Failure mechanics
acoustic emission, ultrasonic testing, composite materials 195
Feature mapping
NDE, cracks 215
Finite differences
NDT, Rayleigh waves, numerical visualizations 328
Flaw detectors
pulse-echo techniques, electronics 112
Focussed transducers
transducers, index of asymmetry .. 300
Fourier synthesis
annular arrays, intensity distributions 172
Free radicals
sonochemistry, diagnostic ultrasound, cavitation 31
Heterogeneous media
wave propagation, mathematical models 209
High intensity ultrasound
metal solidification, structure changes 73
sonochemistry, inorganic solids, electron microscopy 56
Historical developments
sonochemistry, current theories 6
Hydrophones
laser interferometry 114
Image resolution
biomicroscopy, inverse scattering, biological tissues 274
B-scan, SAFT, deconvolution 259
Index of asymmetry
transducers, focussed transducers .. 300
Inorganic solids
sonochemistry, high intensity ultrasound, electron microscopy 56
Intensity distributions
Fourier synthesis, annular arrays .. 172
Intermolecular free length
ultrasound velocities, tetraalkoxysilanes, material characterization 283
Inverse scattering
acoustics, cylindrical geometry 138
biomicroscopy, image resolution, biological tissues 274
Laser interferometry
hydrophones 114
Lasers
acoustic instability, dielectric constants 175
Material characterization
plane waves, anisotropy, plate waves 133
signal processing, austenitic steels .. 90
ultrasound velocities, automatic determination 288
ultrasound velocities, tetraalkoxysilanes, intermolecular free length 283
Mathematical models
pulse characterization 83
transducers, ultrasound velocities .. 237
wave propagation, heterogeneous media 209
wave scattering, phase variation .. 141
Metal solidification
high intensity ultrasound, structure changes 73
Microcomputers
NDT, signal processing 166
Minimization
NDT, split spectrum processing, processing parameters 204
NDE
feature mapping, cracks 215
NDT
Rayleigh waves, finite differences, numerical visualizations 328
signal processing, microcomputers 166
split spectrum processing, processing parameters, minimization 204
Noise spectra
cavitation, polymers 67
Numerical visualizations
NDT, Rayleigh waves, finite differences 328
Organic chemistry
sonochemistry, chemical synthesis, phase transfer catalysis 35
Organic liquids
sonochemistry, polymerization 20
Organometallic sonochemistry
sonochemistry, synthetic reactions .. 40
Phase errors
phased arrays, directivity patterns .. 154
Phase transfer catalysis
sonochemistry, organic chemistry, chemical synthesis 35
Phase variation
wave scattering, mathematical models 141
Phased arrays
amplitude errors, directivity patterns 147
phase errors, directivity patterns ... 154
Plane waves
anisotropy, material characterization, plate waves 133
transducers, edge waves, fabrication techniques 100
Plastic deformation
elastic anisotropy, acoustic birefringence 160
Plate waves
plane waves, anisotropy, material characterization 133
Polymerization
sonochemistry, organic liquids 20
Polymers
cavitation, noise spectra 67
Processing parameters
NDT, split spectrum processing, minimization 204
Pulse characterization
mathematical models 83
Pulse generation
echography, excitation systems ... 221
Pulse-echo techniques
electronics, flaw detectors 112

Conference reports

Acoustics and ultrasonics in emulsions and dispersions, London, UK, 17 July 1986
Povey, M.J.W. 119
Eighth international acoustic emission symposium, Tokyo, Japan, 21–24 October 1986
Higo, Y. 248

Fluctuation phenomena in underwater acoustics, Weymouth, UK, 9–10 December 1986
Chivers, R.C. 303
Mathematical modelling of non-destructive evaluation, Cambridge, UK, 2–3 September 1986
Bond, L.J. 183
Physics in medical ultrasound, Durham University, UK, 9–10 April 1987
Bacon, D.R. 304
Second international symposium on acoustic emission from reinforced composites, Montreal, Canada, 21–25 July 1986
Sachse, W. and Ono, K. 120
Sonochemistry symposium, annual chemical congress, University of Warwick, UK, 8–11 April 1986
Mason, T.J. 5
Third spring school on acousto-optics and its applications, Gdańsk-Wieżyca, Poland, 26–31 May 1986
Ślewiński, A.S. 182

Book reviews

Clinical Diagnostic Ultrasound, edited by E. Barnett and P. Morley
Bentley, B. 123
Obstetric Ultrasound, How, Why and When
Chambers, S.E. 249
Physical Principles of Medical Ultrasonics, edited by C.R. Hill
Wells, P.N.T. 122
The Safety of Diagnostic Ultrasound, edited by P.N.T. Wells
ter Haar, G.R. 305

Abstracts from Ultrasonics International 87 Conference

Abstracts of oral papers 338
Abstracts of poster papers 362
